

## Can You Get SIAST Credit for Your Saskatchewan High School Information Processing Classes? Here is how to find out.

1. Once you have been accepted into a SIAST program, with the assistance of your high school teacher or counselor, work through the following process to help you determine whether you can achieve SIAST credit for your high school computer classes.
2. Refer to the list of standardized SIAST computer courses required by SIAST programs, on the following page, to identify the computer courses required in your SIAST program of study. Indicate which of these are required on the chart below.

Name of SIAST Program:	REQUIRED COURSE	
	YES	NO
<b>COMP 170:</b> Basic Computer Operation		
<b>COMP 171:</b> Intro to Microsoft Word		
<b>COMP 172:</b> Intro to Microsoft Word and Excel		
<b>COMP 173:</b> Intro to PowerPoint and Web Publishing		
<b>COMP 174:</b> Intro to Microsoft Excel: I		
<b>COMP 175:</b> Intro to Microsoft Excel: II		
<b>COMP 176:</b> Intro to Microsoft Access: I		

3. Then, using the attached **Articulation Map for Saskatchewan Learning Information Processing Curriculum and SIAST Standardized Computer Courses**, match your successfully completed information processing modules with the SIAST computer courses you checked under the Yes column in Step 2. Remember, you must have completed these modules within the last two years and have achieved a minimum grade of 70%.
4. Do you have all of the appropriate high school information processing modules necessary to receive SIAST equivalency for your required standardized computer courses?  
(i.e. 6 modules = Comp 176)      Yes       No
5. If you have achieved the requirements necessary to receive SIAST computer credit(s), have your Computer Science teacher or designated school official complete the **attached Validation for Articulation Credit Form**.
6. Submit a **Transfer Credit Request Form** to SIAST Registration Services, plus have your high school complete and forward the Validation for Articulation Credit Form directly to SIAST Registration Services. (Transfer Credit Request Form maybe found at <http://www.siastr.sk.ca/pdf/transfercreditrequestform.pdf> )

**Note:** If you do not qualify for a transfer equivalency (i.e. have taken the classes more than two years ago and/or achieved a mark under 70%), but you **do** have extensive application knowledge working with one or more of the Microsoft software programs, you may be eligible for a Prior Learning Assessment (PLAR). To find out more about PLAR for Standardized Computer Courses, read the Fact Sheet at: <http://www.siastr.sk.ca/pdf/plar/stdcompfactsheet.pdf>

## Standardized SIAST Computer Courses Required by SIAST Programs

SIAST Programs Requiring Standardized Computer Courses	Standardized SIAST Computer Courses

## Validation for Articulation Credit Form

*This form is valid for two years after the student's graduation from high school.*

This is to certify equivalency credit for:

Client Information (please print)			
Name of Student			
Mailing Address	City/Town	Province	Postal Code
Social Insurance Number		Telephone No. ( )	
High School Name:		Graduation Date:	
School Address:			
SIAST Program(s) of interest:			

Please refer to <http://www.siastr.sk.ca/siastr/admissions/transferecredit.htm> for information on articulation requirements and a copy of:

- **SIAST Programs Granting Credit for Standardized Computer Courses and**
- **Articulation Map for Saskatchewan Learning INFO PRO Curriculum and SIAST Standardized Computer Courses**

A satisfactory competency (final grade of at least 70%) must have been achieved in the required high school courses.
