1. How do we write 86, 45, 99 from largest to smallest?

\_\_\_\_\_

Did you write 99, 86, 45? Yes, 99 is larger than both 86 and 45, and 45 is the smallest number. Do the following:

12 56 43 \_\_\_\_\_

354 854 299 \_\_\_\_\_

754 790 767 \_\_\_\_\_

2. Now write these numbers from smallest to largest.

98 94 87 \_\_\_\_\_

999 777 111 \_\_\_\_\_

3. Add the missing numbers:

\_\_\_, 345, 346, \_\_\_\_, \_\_\_\_, 349

150, 160, 170, \_\_\_\_, \_\_\_\_, \_\_\_

4. Write the number that comes just before and just after the following numbers:

before		after
__ __	23	__ __
__ __ __	876	__ __ __
__ __	99	__ __
__ __ __	555	__ __ __

5. Start at 268 and keep on counting until you get to 301. Please write a comma between each number.

268, 269, 270, \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

6. Continue counting . . .

32, 31, 30, \_\_ \_\_, \_\_ \_\_, \_\_ \_\_, \_\_ \_\_

102, 101, 100, \_\_ \_\_, \_\_ \_\_, \_\_ \_\_, \_\_ \_\_

77, 76, 75, \_\_ \_\_, \_\_ \_\_, \_\_ \_\_, \_\_ \_\_

In your journal write 4 numbers. Make sure these numbers are not in order. Ask a friend to write these in order for you. You may want to ask a friend to write a question for you.
