Introduction

This supplementary resource of student exercises and activities is designed for use with the *MOVA I ROZMOVA, Level 2* Ukrainian language instructional materials developed for the Ukrainian Canadian Congress by Stephania Yurkiwsky under the guidance of an interprovincial editorial board. *MOVA I ROZMOVA* is used in Core, Ukrainian-English Bilingual and Out-of-School Ukrainian language programs at the upper elementary and secondary levels.

The exercises are organized in the same sequence as the *MOVA I ROZMOVA* dialogues and lessons. They can be adapted, revised, used independently or combined with other exercises to suit the needs of a specific instructional program or class. The illustrations allow students to recall new vocabulary and linguistic structures independently, thus strengthening Ukrainian language acquisition.

Assessment is an integral part of all Ukrainian language instruction programs. The exercises contained in this document can serve as testing and evaluation materials to measure student progress and to assist the teacher in determining to what extent the goals and objectives of the program are being met.

Saskatchewan Education's Ukrainian core and bilingual curriculum guides provide specific information for each type of instructional program presently taught in Saskatchewan schools. Teachers of Ukrainian are encouraged to consult these documents for detailed information on program requirements.
